Student of the Week

Congratulations to our Student of the Week winners. They received their award for being enthusiastic scientists. Well done!

SCIENCE.

“Houston we have a problem...”

Well, Houston did have a problem yesterday! Despite our best efforts and forward planning, there was a miscommunication between our booking agent in NSW and the NASA Space Centre in the US, which meant that we were unable to undertake our Science incursion through the solar system via Polycom. Although we were a bit disappointed, we ‘bounced back’ quickly and are now looking forward to ‘take two’ next week. We have rescheduled our mission for Thursday 25th August; same time (9.30 am take-off), same place.
“Silly Science” Day
Students had a great
day last Friday, dressing
up and doing science
experiments for “Silly
Science” Day.
F-2 Classroom

We have been learning about shapes in our maths lessons over the last couple of weeks. The students really enjoyed creating, adding to and modifying a shape city. Some of the senior class also added a feature or two.

The students have been using interesting ways to learn their spelling words this week.
JSC

We have had some special deliveries this week. The JSC decided on an adjustable basketball ring (thanks Jazz and Mr Murrell for putting this together and to Ben for supervising), totem tennis poles and cushions for the senior classroom. We have another special delivery coming this week or early next week. Well done JSC, on all of your hard work and dedication so far this year!! You have all been very active members. We would also like to welcome Kiah and Lainey to our JSC.

The JSC have had fun running mini Olympic sports every lunchtime.

Don’t forget Friday Pie Day and Milo Monday’s.

Professional Development

Last Friday Sally attended a conference/professional development day, Ignite, Innovate Integrate ICT. It was one of the best pd’s I have attended. It was based on teaching today for tomorrow and how we as teachers teach our students for the future where 65% of the jobs available have not been created yet. The workshops looked at how to use ICT effectively and efficiently as a teaching and learning tool in schools. Stay tuned.......
French

Our little ‘Monet’ artists in French class with their water lilies.
Don’t they look great!

School Photos

We have on display in the foyer photos of our School Captains, Junior School Council and Grade 6 students. You can purchase any of the photos for $18.00 each. Photos need to be ordered and paid by 26th August.

Open Morning

Next Friday we are having our first open morning to show prospective families our wonderful school. All kindergartens in the area have been invited and the Beaufort Newsagency has kindly added our flyer to the newspaper run in the area. Hopefully, we have a successful day.

Help Needed

If anyone can space some time to do some whipper snippering around the school it would be very much appreciated. You will need to bring your own whipper snipper as the school doesn’t have one. Thank you.

Fundraiser

We are holding a Pie Drive fundraiser. Information and order forms are attached to this newsletter.
